

Lyrics to the promotional version of
"Be Creative at your Library"
By Billy Gorilly®

1, 2, 3 time to be creative
Easy as A, B, C if you be creative
He and she's gonna be creative
Everyone come with me, gotta be creative

Do you like to draw?
Do you like to sing?
Maybe you'd like to learn more about science
So you'll be prepared for experimenting.

Be creative, have some fun!
Use your imagination
At your library where you'll always be
Encouraged right from the start.
Be creative at your library
Where you can explore every science and art.
Be creative at your library
Just visit and start taking part.

Be creative at your library!
