

The Best

It will take quite a while to
know how to read or do math
or play the piano,
Pitching a ball or handling a
bat, it will take many hours
to learn how to do that.

There's really no secret to
doing what you want to do
Till you're way out ahead of
the rest,
Just practice and practice
and practice and practice,
And keep getting better 'till
you are the best.

You can do it!
